TIPS & TRICKS is Now On The Web!!!

Platinum Support It's Not Just a Shiny Metal!

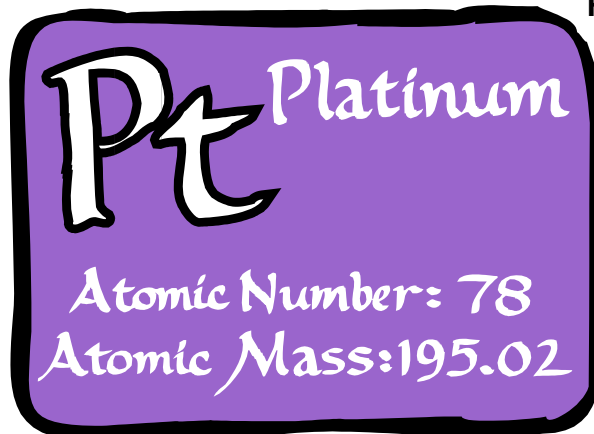

TracTime™ Support

As you know, National Schedule Masters offers several alternative technical support plans.

Technical support plans operate somewhat like insurance. You pay a flat fee and we "cover" you when you need help or have a question about the operation of **TracTime™**.

Support plans are different from training sessions. The specific purpose of a support plan is to *assist you after the initial training*. Training takes place when **TracTime™** is installed and at our Training Class program.

When you subscribe to **TracTime's** Platinum Support Plan, you don't have to worry about how many times you may need to call us within the next year. Maybe you need some one-on-one instruction for a deadline and now you can stop worrying about understanding the manual.

Save Money Immediately

We feel so strongly about supporting our clients that the Platinum Support Plan includes—**FOR FREE**—all minor and major upgrades released within your support year. This will save you *hundreds of dollars per year* compared to purchasing these upgrades separately.

Practical Help Too!

Don't forget, our business for many years was consulting

with homebuilders. We have a lot of experience with many of the issues you face every day; what report should I use to analyze my projects more carefully and accurately and, how other companies have handled a situation. . . ?

Remember, Platinum is not just a shiny metal. It will help you save money, do your job more efficiently and most importantly, more accurately!

Keep Current

- Are You Remote Reporting From the Field?
- Are You and Your Staff TracTime Certified?
- Do You Use ChartBuilder?
- Are You Using TracTime to Interface With Your Accounting System?
- Is Your Support Contract Current?
